

Fitzgerald High School Retro-Commissioning Program Express Track

Project Details

Fitzgerald High School in Warren is one of the community-oriented schools within the Fitzgerald Public Schools district. Their mission is to educate and nurture students to acquire the academic, vocational, and social skills needed to become self-sufficient citizens.

The following energy efficiency improvements were identified, implemented, and verified through the RCx Program at Fitzgerald High School:

- Adjusted HVAC scheduling
- Adjusted economizer & temperature setpoints for ventilators
- Reset rooftop static pressure
- Released rooftop temperature setpoint overrides

What is Retro-Commissioning?

The DTE Energy Retro-Commissioning (RCx) Program provides a professional study of your existing building and process systems. Program specialists help you optimize and improve comfort and functionality while decreasing energy and maintenance costs over time.

The program is focused on tuning-up your existing equipment for more efficient performance, rather than upgrading or replacing it.

The retro-commissioning study is complimentary with opportunities for additional incentives and bonuses. Contact us to see if you qualify.

Get Started Today!

Project snapshot

Program participant	Fitzgerald High School
Building size	400,000 sq. ft
Verified annual electric savings	144,377 kWh
Simple payback	Immediate

Description	Cost (-)	Benefit (+)
Annual energy cost savings estimate		\$14,005
Implementation cost	\$0	
Implementation funding		\$2,000
Customer verification bonus		\$1,888
Customer bank bonus		\$1,444
Total benefit		\$19,336

The DTE Retro-Commissioning Program is an important part of our energy efficiency initiatives through DTE CleanVision, our goal of net zero carbon emissions by 2050. Learn more about CleanVision at dtecleanenergy.com and the RCx Program at rcx.dteenergy.com.
